Subject: West Lake Landfill: review of recent groundwater data
West Lake Groundwater Monitoring Report 12-14-12.pdf

Bill,

Cecilia has requested that you review the recent groundwater data for West Lake that's in the attached report. This is related to the groundwater split sampling memo-to-file that I sent you previously. We have requested the PRPs do additional sampling rounds, and they have requested that the analyte list be pared down. Once you have reviewed the data, we will need to talk with MDNR about this request, and then get back with the PRPs with our decision.

Please advise when you can have this data reviewed and be ready for the conversations with MDNR and then the PRPs. Cecilia would like to get back to the PRPs ASAP. Call or stop by with questions.

Sincerely,
Daniel R. Gravatt, PG
